\$31.31

Average hourly earnings in December 2021, up from \$29.91 one year earlier. After adjusting for the effects of inflation by using constant 1982-84 dollars (i.e., the value of a dollar in 1982-84), the December 2021 average was \$11.17, down from \$11.44 in December 2020.

Source: U.S. Bureau of Labor Statistics, 2022

Inflation Cuts into Wage Gains

Driven by labor shortages, median hourly wages increased at an annual rate of 5.2% in December 2021, the highest level since June 2001. However, inflation cuts into buying power, and *real wages* — adjusted for inflation — actually dropped as inflation spiked in 2021. By contrast, negative inflation (deflation) during the Great Recession sent real wages skyrocketing temporarily even as non-adjusted wage growth declined.

Sources: Federal Reserve Bank of Atlanta, 2022, and U.S. Bureau of Labor Statistics, 2022, data 1/2001 to 12/2021. (Wage growth is calculated by comparing the median percentage change in wages reported by individuals 12 months apart; real wage growth is calculated by subtracting CPI-U inflation from wage growth.)

Key Retirement and Tax Numbers for 2022

Every year, the Internal Revenue Service announces cost-of-living adjustments that affect contribution limits for retirement plans and various tax deduction, exclusion, exemption, and threshold amounts. Here are a few of the key adjustments for 2022.

Estate, Gift, and Generation-Skipping Transfer Tax

- The annual gift tax exclusion (and annual generation-skipping transfer tax exclusion) for 2022 is \$16,000, up from \$15,000 in 2021.
- The gift and estate tax basic exclusion amount (and generation-skipping transfer tax exemption) for 2022 is \$12,060,000, up from \$11,700,000 in 2021.

Standard Deduction

Taxpayers can generally choose to itemize certain deductions or claim a standard deduction on their federal income tax returns. In 2022, the standard deduction is:

- \$12,950 (up from \$12,550 in 2021) for single filers or married individuals filing separate returns
- \$25,900 (up from \$25,100 in 2021) for married joint filers
- \$19,400 (up from \$18,800 in 2021) for heads of household

The additional standard deduction amount for the blind and those age 65 or older in 2022 is:

- \$1,750 (up from \$1,700 in 2021) for single filers and heads of household
- \$1,400 (up from \$1,350 in 2021) for all other filing statuses

Special rules apply for those who can be claimed as a dependent by another taxpayer.

IRAs

The combined annual limit on contributions to traditional and Roth IRAs is \$6,000 in 2022 (the same as in 2021), with individuals age 50 or older able to contribute an additional \$1,000. The limit on contributions to a Roth IRA phases out for certain modified adjusted gross income (MAGI) ranges (see *chart*). For individuals who are covered by a workplace retirement plan, the deduction for contributions to a traditional IRA also phases out for certain MAGI ranges (see *chart*). The limit on nondeductible contributions to a traditional IRA is not subject to phaseout based on MAGI.

MAGI Ranges: Contributions to a Roth IRA

	2021	2022
Single/Head of household	\$125,000–\$140,000	\$129,000–\$144,000
Married filing jointly	\$198,000–\$208,000	\$204,000–\$214,000
Married filing separately	\$0–\$10,000	\$0–\$10,000

MAGI Ranges: Deductible Contributions to a Traditional IRA

	2021	2022
Single/Head of household	\$66,000–\$76,000	\$68,000–\$78,000
Married filing jointly	\$105,000–\$125,000	\$109,000–\$129,000

Note: The 2022 phaseout range is \$204,000–\$214,000 (up from \$198,000–\$208,000 in 2021) when the individual making the IRA contribution is not covered by a workplace retirement plan but is filing jointly with a spouse who is covered. The phaseout range is \$0–\$10,000 when the individual is married filing separately and either spouse is covered by a workplace plan.

Employer Retirement Plans

- Employees who participate in 401(k), 403(b), and most 457 plans can defer up to \$20,500 in compensation in 2022 (up from \$19,500 in 2021); employees age 50 or older can defer up to an additional \$6,500 in 2022 (the same as in 2021).
- Employees participating in a SIMPLE retirement plan can defer up to \$14,000 in 2022 (up from \$13,500 in 2021), and employees age 50 or older can defer up to an additional \$3,000 in 2022 (the same as in 2021).

Kiddie Tax: Child's Unearned Income

Under the kiddie tax, a child's unearned income above \$2,300 in 2022 (up from \$2,200 in 2021) is taxed using the parents' tax rates.

What's the Difference Between Medicare and Medicaid?

It's easy to confuse Medicare and Medicaid, because they have similar names and are both government programs that pay for health care. But there are important differences between the programs. Medicare is generally for older people, while Medicaid is for people with limited income and resources.

What Is Medicare?

Medicare is a fee-for-service federal health insurance program that provides reasonably priced health insurance for retired individuals, regardless of their medical condition, and for certain disabled individuals, regardless of age. It is managed by the Centers for Medicare & Medicaid Services.

What Is Medicaid?

Medicaid is a health insurance assistance program that is jointly administered by state and federal governments. Medicaid serves financially needy individuals who are also elderly, disabled, blind, or parents of minor children.

Who Is Eligible for Medicare?

You are eligible for premium-free Part A (hospital insurance) if you are age 65 or older and you (or your spouse) worked and paid Medicare taxes for at least 10 years. If you (or your spouse) did not pay Medicare taxes while you worked, and you are age 65 or older and a citizen or permanent resident of the United States, you may be able to buy Part A. Medicare coverage also may be available for disabled individuals and people with end-stage renal disease.

While most people do not have to pay a premium for Part A, everyone must pay for Part B if they want it. This monthly premium is deducted from your Social Security, Railroad Retirement, or Civil Service Retirement benefit.

Who Is Eligible for Medicaid?

Each state has different rules about eligibility and applying for Medicaid. To qualify, you must be a resident of the state in which you are applying and a U.S. citizen (or have qualified immigration status). While eligibility varies by state, federal law requires states to cover certain groups of individuals. Low-income families, qualified pregnant women and children, and individuals receiving Supplemental Security Income (SSI) are examples of mandatory eligibility groups. In addition, a financial eligibility requirement must be met. The individual must be financially needy, which is determined by income and asset limitation tests.

What Does Medicare Cover?

Currently, Medicare consists of four parts: Original Medicare Part A helps cover costs related to inpatient care in a hospital, a skilled nursing facility, hospice care, and home health care. Original Medicare Part B

helps cover services from doctors and other health-care providers, outpatient care, ambulance services, lab tests, physical therapy, durable medical equipment (like wheelchairs, walkers, and hospital beds), and many preventive services such as screenings and vaccines. Medicare Advantage (Part C) replaces Parts A and B and enables beneficiaries to receive health care through managed care plans such as health maintenance organizations and preferred provider organizations. Medicare Part D helps cover the costs of prescription drugs.

Tip: Medicare and Medicaid were signed into law in 1965 to help provide health care to older individuals and those with financial need.

What Does Medicaid Cover?

Each state administers its own Medicaid program within broad federal guidelines. Thus, states determine the amount, duration, and types of benefits that Medicaid will provide. Typical Medicaid programs cover inpatient and outpatient hospital services; physician and surgical services; lab tests and X-rays; family planning services, preventive care, including immunizations, mammograms, colonoscopies, and other needed care; mental health care; and services for pregnant women. There are also numerous optional benefits that states may offer.

Can You Be Covered by Both Medicare and Medicaid?

Some people who qualify for both Medicare and Medicaid are called "dual eligibles." If you have Medicare and full Medicaid coverage, most of your health-care costs are likely covered.

What About Long-Term Care?

Most long-term care isn't medical care, but rather help with basic personal tasks of everyday life, called custodial care. Medicare does not pay for custodial care. However, Medicare may pay for skilled care (e.g., nursing, physical therapy) provided in a Medicare-certified skilled nursing facility for up to 100 days. States have considerable leeway in determining benefits offered and services provided by their respective Medicaid programs. Generally, if you meet your state's eligibility requirements, Medicaid will cover nursing home services, home and community-based services, and personal care services.

Plan Ahead to Help Ease the Burden of Tax Season

Most U.S. taxpayers "completely agree" (68%) or "mostly agree" (26%) that paying their fair share of taxes is a civic duty.¹ However, no one wants to pay more than his or her fair share. To help avoid doing so, consider addressing some important priorities before you begin filling out your tax forms.

Here are some steps that might help reduce stress when preparing your return.

Create an online account with the IRS. In addition to making it easier to review important tax information from previous years, an online IRS account provides a secure platform for reviewing the total amount you owe, making payments, responding to third-party tax information authorization requests, and more. Your balance is typically updated each night, and the service is available seven days a week, which makes it a good resource if you don't have easy access to hard copies of previous returns. Visit [irs.gov](https://www.irs.gov) for more information.

The IRS issued more than 125 million individual income tax refunds in 2020; the average amount was nearly \$2,600.

Source: Internal Revenue Service, 2021

Organize paperwork for all sources of income.

Completing a tax return can be stressful enough without having to search for supporting documents, so at the outset gather records of all taxable income you earned during the year. If you are unsure whether income is taxable, review IRS Publication 525, *Taxable and Nontaxable Income*. For example, if you received income in the form of a valid check during 2021 but did not cash the check until 2022, you must still include it on your 2021 return. Other forms of taxable income include workplace bonuses and awards (e.g., goods, services, and vacation trips) and winnings from lotteries and raffles. The fair market value of any "found property" you acquired is also taxable. Found property includes anything you found and kept that did not belong to you but is now in your "undisputed possession."

Determine whether you qualify for disaster relief. If your home or business is in an area that was affected by a natural disaster, the IRS may extend deadlines for filing returns and paying taxes. To determine whether you qualify, consult the Tax Relief in Disaster Situations page on the IRS website.

Filing your taxes doesn't need to be an annual exercise in frustration. This year, consider simplifying your financial life by doing some basic pre-planning. Before you take any specific action, be sure to consult with your tax professional.
